# The Firm

---

## Clear counsel. Commercial outcomes. No wasted motion.

Jestina Ngaw & Partners is a Kuala Lumpur law firm providing strategic legal and commercial advisory services to corporations, businesses and individuals. We act for clients across dispute resolution, corporate and commercial matters, and a range of specialist practice areas.

We deliver clear, practical advice grounded in efficiency, risk management and client value. Our conviction is simple: good counsel should move a business forward, not slow it down — and legal advice is only useful when it can be acted upon with confidence.

THE FIRM'S OPERATING PRINCIPLE

# How We Work

---

Every engagement at JNP is governed by three commitments. They are not marketing language — they are the operating standards each client can hold us to, on every matter, at every stage.

## Transparent Fixed Fees

---

No hidden charges. No open-ended hourly billing. Fees are agreed clearly and upfront, with structures designed for predictable legal costs and confident budgeting — so the commercial decision is made before the work begins, not after the invoice arrives.

## Fast, Practical Solutions

---

Efficient resolution focused on protecting your commercial interests — not on prolonging academic conflict. We measure success by outcomes achieved and business continuity preserved, not by hours recorded.

## Plain Language, Real Answers

---

Clear, distilled legal guidance written to empower fast, confident executive decision-making. No dense jargon that obscures risk. If advice cannot be acted on, it has not done its job.

# The JNP Difference

---

Much of legal practice still runs on a model built for the firm, not the client.  
We built JNP as a deliberate departure from it.

## THE TRADITIONAL MODEL

## OUR APPROACH AT JNP

Open-ended hourly billing —  
unpredictable by design

**Transparent, fixed-fee structures  
for total budget predictability**

Prolonged, academic  
conflict generation

**Fast, commercially practical solutions  
focused on business continuity**

Dense legal jargon  
that obscures risk

**Clear, actionable advice written  
for executive decision-makers**

Bureaucratic bloat and  
slow turnaround times

**An agile, dedicated team providing  
high-impact, hands-on support**

**The result: counsel you can budget for, act on, and trust.**

# Areas of Practice

## Jestina Ngaw Kim Fang

ADVOCATE & SOLICITOR, HIGH COURT OF MALAYA  
MEMBER OF THE MALAYSIAN BAR

Jestina founded and leads Jestina Ngaw & Partners, and personally directs every engagement the firm accepts. Her practice spans dispute resolution and commercial advisory work for corporations, business owners and private clients.

Known for direct, commercially grounded counsel, she works closely with every client from first meeting to resolution — pairing rigorous preparation with a clear-eyed view of what actually counts for the people and businesses she acts for. At JNP, clients deal with the decision-maker, not layers of intermediaries.

**“Clients don’t need more law.  
They need an answer they can act on.”**
